

Product Briefing

**Required*

*Model Name	GS1200-5 / GS1200-8
*Product Name	5-Port/8-Port Web Managed Gigabit Switch
*Slogan	Extensive featured switch for small businesses
*Target Audience	Users who wants to manage their network devices
*Product Positioning	Provide web management capability with easy web configuration in office environments
*Product Introduction	<p>The Zyxel GS1200-5 / GS1200-8 is more than just a typical switch. It comes with an easy-to use Web configuration to prioritize, limit and /or protect network traffics. It has been designed specifically for customers who require simple control functions for office network management.</p> <p>The simple control functions include dividing a network into one /or more smaller groups for security and resource planning. The Zyxel GS1200-5 / GS1200-8's configurable QoS feature also enables better traffic management. DHCP client feature enables dynamic IP address assigned from upper DHCP server for effective network management.</p> <p>In order to achieve greater throughput for high demanding network devices, Zyxel GS1200-5 / GS1200-8 provides flexibility for static link aggregation to aggregate 2 ports in parallel to improve the network performance in office network or aggregation to an upper managed switch. Moreover, port mirroring allows copying packets from one or multiple ports for analyzing, debugging or diagnosing traffics.</p> <p>The Zyxel GS1200-5 / GS1200-8 optimizes media traffic delivery by supporting IGMP Snooping v1/v2 and v3 which is compatible with configurable IGMP router port selection.</p> <p>The Zyxel GS1200-5 / GS1200-8 is firmware-upgradable for</p>

	<p>support, and configuration can be backed up and restored to the system as well.</p> <p>The Zyxel GS1200-5 / GS1200-8 is certified with CE and FCC Class B with more protection against harmful interference in residential grade.</p>
<p>*Key Features</p>	<ul style="list-style-type: none"> • Intuitive Web Management • Quality of Service for better traffic control • Multicast IGMP snooping v1/v2 and v3 compatible for streaming applications • Virtual LAN for enhanced network security • Link aggregation increases bandwidth between 2 Ethernet ports • Port mirroring enables monitoring and diagnosing one or multiple ports. • CE/FCC Class B certified for better protection against harmful interference
<p>* Benefits</p>	<p>Smart features</p> <p>The Zyxel GS1200-5 / GS1200-8 Web Managed Gigabit Switch provides simple control for better manageability. Unlike other advanced but complex managed switches, the Zyxel GS1200-5 / GS1200-8 is suitable for most users and provides an affordable solution with fundamental features including VLAN, QoS, IGMP snooping v1/v2 and v3 compatible, link aggregation, and port mirroring.</p> <p>Easy to configure</p> <p>The Zyxel GS1200-5 / GS1200-8 does not require any additional software. It is more visualized with the easy, friendly, more intuitive Web GUI that helps configuration tasks to be completed in just simple clicks. It is much easier for small office users' network.</p> <p>Energy Saving for IEEE 802.3az</p> <p>The Zyxel GS1200-5 / GS1200-8 built-in IEEE 802.3az Energy Efficient Ethernet (EEE) function automatically detects network traffic and adjusts power consumptions dynamically to reduce</p>

	power consumption during low link utilization periods.

<p>*Application Diagram</p>	<p>The diagram illustrates a network setup. An Internet connection (represented by a globe icon) is connected to a ZYXEL USG60 Unified Security Gateway. The USG60 is connected to two ZYXEL switches: a GS1200-5 (5-Port Web Managed) and a GS1200-8 (8-Port Web Managed). A legend indicates that solid lines represent Gigabit Ethernet connections. The GS1200-8 switch is connected to four devices: an IP Phone, a NAS540 (4-Bay Personal Cloud Storage), a Desktop computer, and a Notebook.</p>
